

## PRESS RELEASE

Brussels, Belgium - Singapore | 18 June 2026

# ARE & SEAS sign landmark MoU to strengthen regional clean energy collaboration in Asia

The Alliance for Renewable Electrification (ARE) has signed a Memorandum of Understanding (MoU) with the Sustainable Energy Association of Singapore (SEAS), marking a significant step in strengthening regional collaboration in support of clean energy development, business engagement, and market growth. The partnership creates new avenues for cooperation across renewable energy, energy efficiency, education, business matchmaking, market development, and stakeholder engagement.

**Welcoming the partnership, David Lecoque, CEO of ARE said:** *“Southeast Asia is among the most promising markets for renewable electrification globally and partnering with SEAS gives ARE and our Members a stronger foothold in the region. Together, we can unlock real business opportunities, share knowledge, and help scale the solutions that will power ASEAN’s energy transition. We are genuinely excited about what this collaboration will deliver.”*

Signed on 10 June 2026 at the Asian Clean Energy Forum, the MoU aims to strengthen cooperation in decentralised renewables for clean energy access and broader industry collaboration. The collaboration is expected to create new opportunities for ARE and SEAS Members while supporting sustainability and economic development goals. A key focus of the partnership is the exchange of knowledge, expertise, and industry insights. By sharing developments, best practices, and market intelligence,

the organisations aim to foster stronger cooperation among stakeholders and facilitate the growth of sustainable energy ecosystems.

*"Collaboration is key to accelerating the energy transition across the region. Through our partnerships with PNOG and ARE, SEAS aims to strengthen industry connections, facilitate knowledge exchange, and create new opportunities for sustainable energy development. We look forward to working together to drive meaningful impact for our members and the wider clean energy ecosystem,"* **said Kavita Gandhi, Executive Director of SEAS.**

ARE and SEAS look forward to fostering this meaningful partnership that drive innovation, accelerate the energy transition, and deliver long-term economic and environmental benefits for the region.

#### **Note to the editor**

#### **About ARE**

The Alliance for Renewable Electrification ([ARE](#)) is the global industry platform that federates and supports renewable energy companies to win business, shape policy and scale deployment across emerging markets.

#### **About SEAS**

The Sustainable Energy Association of Singapore ([SEAS](#)) represents the interests and provides a common platform for companies in Renewable Energy, Energy Efficiency, and Financial Institutions to meet, discuss, collaborate and undertake viable projects together. The Association is a non-profit, non-government business association, and its mission is to assist its members in achieving sustainable growth locally and regionally through business development, market development, as well as training and learning platforms. SEAS plays a strategic role in aiding the realisation of Singapore's vision; to be a global centre for sustainable energy, where products and

solutions are developed and exported. For more information about what the Association does and its services, please visit [www.seas.org.sg](http://www.seas.org.sg).
